

# Announcements

Lecture 2 :: September 17, 2018

- **Communication Method**

- Piazza: public, or private (visible only to teaching staff)
- Please do not use regular email and Canvas email.
  - Exception: Send an email to Prof. K. if you have personal matters to be discussed only with him.

- **Late Homework Policy**

- No late homework will be accepted under any circumstances.
  - Ex) Submissions at 12:01 am will be considered late.
- Homework problems are available from the course syllabus ([2018-09-09 version](#)).

- **Homework Grading**

- Grading will be done within a week from submission deadlines.
- Grade questions: Make a private post under the [grade\\_question](#) folder on Piazza. No email, please.

- **Case 1 Studies**

- Students need to form groups of 4 people by themselves.
  - Use the [Case 1](#) folder on Piazza.
  - HW 2 Extra Credit: Earn this credit by submitting the names of 4 group members with HW2.
  - How to submit a video file will be announced later.
- Start it now (while working on HW2). Due two weeks from today.
  - Detailed information is available under cases/okCupid on GitHub.

# R Programing Problem – How to submit your work?

- 1) Complete your R programming in an R file.
  - 2) Fill in the information for title, author, and date in the Rmd template.
    - Also, change the name of the Rmd file according to your name.
  - 3) Select, copy & paste your entire, error-free R code into the Rmd template.
  - 4) Click the "Knit" button on RStudio. This will generate an HTML file.
  - 5) Submit both HTML and Rmd files to Canvas.
- 
- Note: R file will NOT be accepted and graded.
    - Only HTML and Rmd files please.
